

vectorcam GmbH is an international, modern and dynamic business company, domiciled in Paderborn, which develops and sells a 3D CAD/CAM system for the machining industry. Our Software creates CNC-programs for many different CNC-machines and controls. We consider ourselves as a partner to our customers and we stand for practice-oriented, future-oriented solutions with a comprehensive support.

To enhance our team, we are looking for a

Software developer (m/f/d)

in Paderborn.

Your tasks:

- Conception, programming and further development of our software in C++
- Assistance in system architecture
- Professional and technical assistance
- Evaluation of new technologies and tools
- Development of customer-specific solutions

We offer:

- Innovative projects, non-bureaucratic structures and short decision paths
- Challenging and diversified tasks
- Great working atmosphere in a continuously growing young team who has a lot of fun working together
- Uncomplicated and cooperative interaction with each other
- Freedom to introduce new ideas as well as implementing them

Your profile:

- Advanced studies in computer science or any related fields
- Good knowledge of C++ software development
- Good mathematical/geometrical skills
- Interested in new technologies
- Personal initiative, flexibility and collaborative skills

We have sparked your interest? Please send your compelling application on the following E-Mail address: Mr. Günter Böhring, gb@vectorcam.com. Please mention your availability as well as your expected salary. We are looking forward for your application.
